# EPFC

EPFC is a private fintech platform that incorporates all major business components of a hedge fund operating in capital markets, such as: a trader screener, a portfolio management block, a research block, and a middle office support block.

The platform's dashboards, interfaces, and UX were designed to improve data visibility and enhance realtime decision making.

The screenshot shows the EPFC APP interface with the 'PAIR LIST' tab selected. The table displays a list of bond pairs with columns for No, Bonds, ISINs, FX\_Pair, Segment, 14Dev, 180Dev, AllTimeDev, 180Abs, and Z\_Score.

# Intermodal

Multi-mode Transportation Management System (TMS) for large transportation service providers.

Cargo shipping containers inland delivery operations and management platform. This innovative solution provides an ecosystem encapsulating critical aspects of business operation, from planning to execution stages. The UI/UX design objective was to solve the challenge of presenting a wide variety of essential information, communication pipelines, actionable analytics and resource capacity within one control panel.

# Kaddex

Decentralized exchange (DEX) for the Kadena blockchain as well as a wallet for users on the ecosystem. Our goal was to not only build a simple web interface, but also to create a version of the DEX that fit inside a 3D retro gaming device to make the user experience more interesting and interactive.

# Kadena

Collaboration with Kadena  
blockchain team in branding,  
website development, building a  
wallet, DEX, and various novel  
tools for representing data.

The form is titled "Coin Transfer" and has four tabs: Transfer, Finish Cross Chain Transfer, Check Account Balance, and Generate KeyPair. The "Finish Cross Chain Transfer" tab is selected.

Below the tabs are two input fields:

- Chainweb Server:** A text input field with "api.chainweb.com" and a dropdown menu with "mainnet0".
- Request Key:** A text input field with the placeholder "Enter Request Key".

At the bottom of the form is a green button labeled "Finish Cross Chain Transfer".

The form is titled "Command Preview" and has five tabs: Pact, Signing, Network, Meta Data, and Env Data (Advanced). The "Env Data (Advanced)" tab is selected.

Below the tabs are three input fields:

- Keyset Name:** A text input field with the placeholder "Keyset Name".
- Keyset Predicate:** A dropdown menu with the placeholder "Predicate".
- Public Key:** A text input field with the placeholder "Public Key" and a green "+" button.

On the right side of the form, there is a section for **Transaction Output** showing a JSON object:

```
{
  "hash": "Z9ezz20I5T5CxD...",
  "cmd": "{ \"networkId\": \"...\", \"data\": { }, \"code\": \"...\", \"creationTime\": 164071..., \"chainId\": \"...\", \"gasP...\", \"nonce\": \"...\" }",
  "API Host": "https://api.testnet.cha...",
  "chain/0/pact/api/v1/loc..."
}
```

At the bottom of the form is a green button labeled "Preview Transaction".

# DVF InCharge

Creation of an interactive, community-oriented website called Destination Visionary Friends dedicated to the InCharge movement.

The site will be a place for women to gather, participate and consume content that is both relevant and empowering.

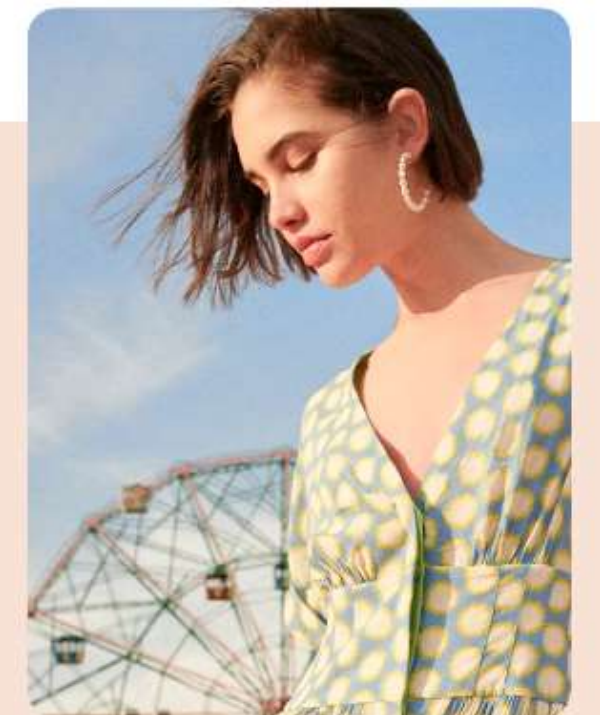

Destination Visionary Friends

DVF

## 7 pillars of our community

DVF Woman is an editorial page dedicated to spotlighting women doing the most in their field by breaking boundaries, and, most importantly, uplifting other women through their work. Through sharing their story, we hope to inspire people to take a chance on themselves and their ideas, just as these incredible women have.

# Mobile Apps

We help to ship delightful applications and differentiate businesses from extensive competition.

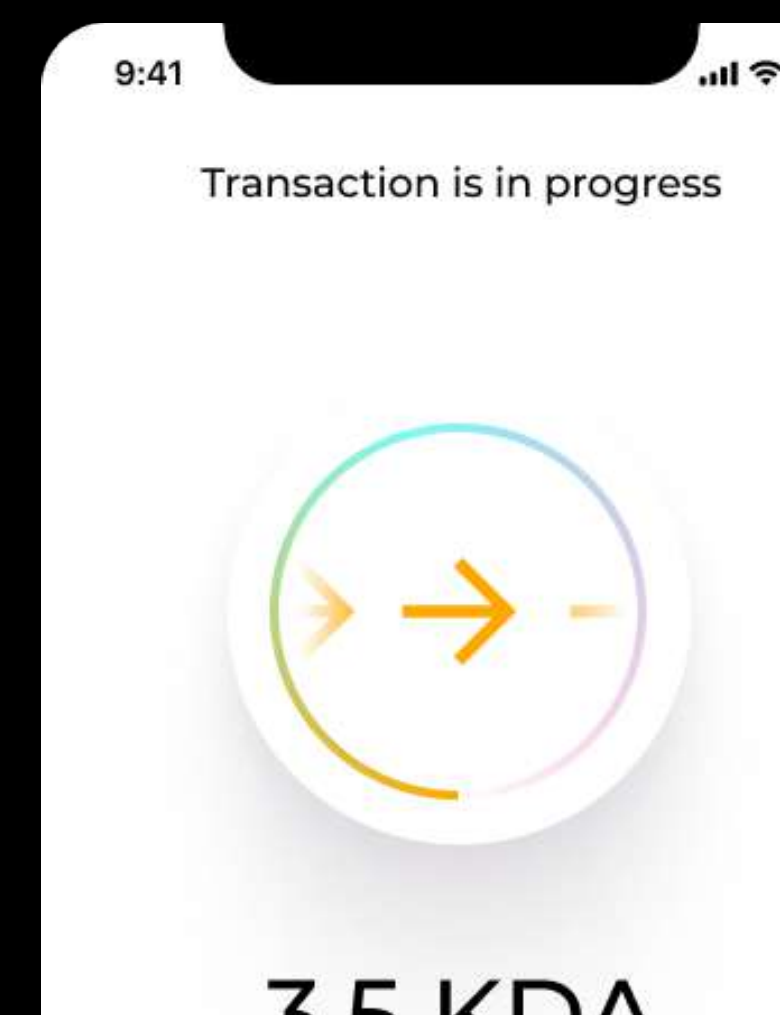

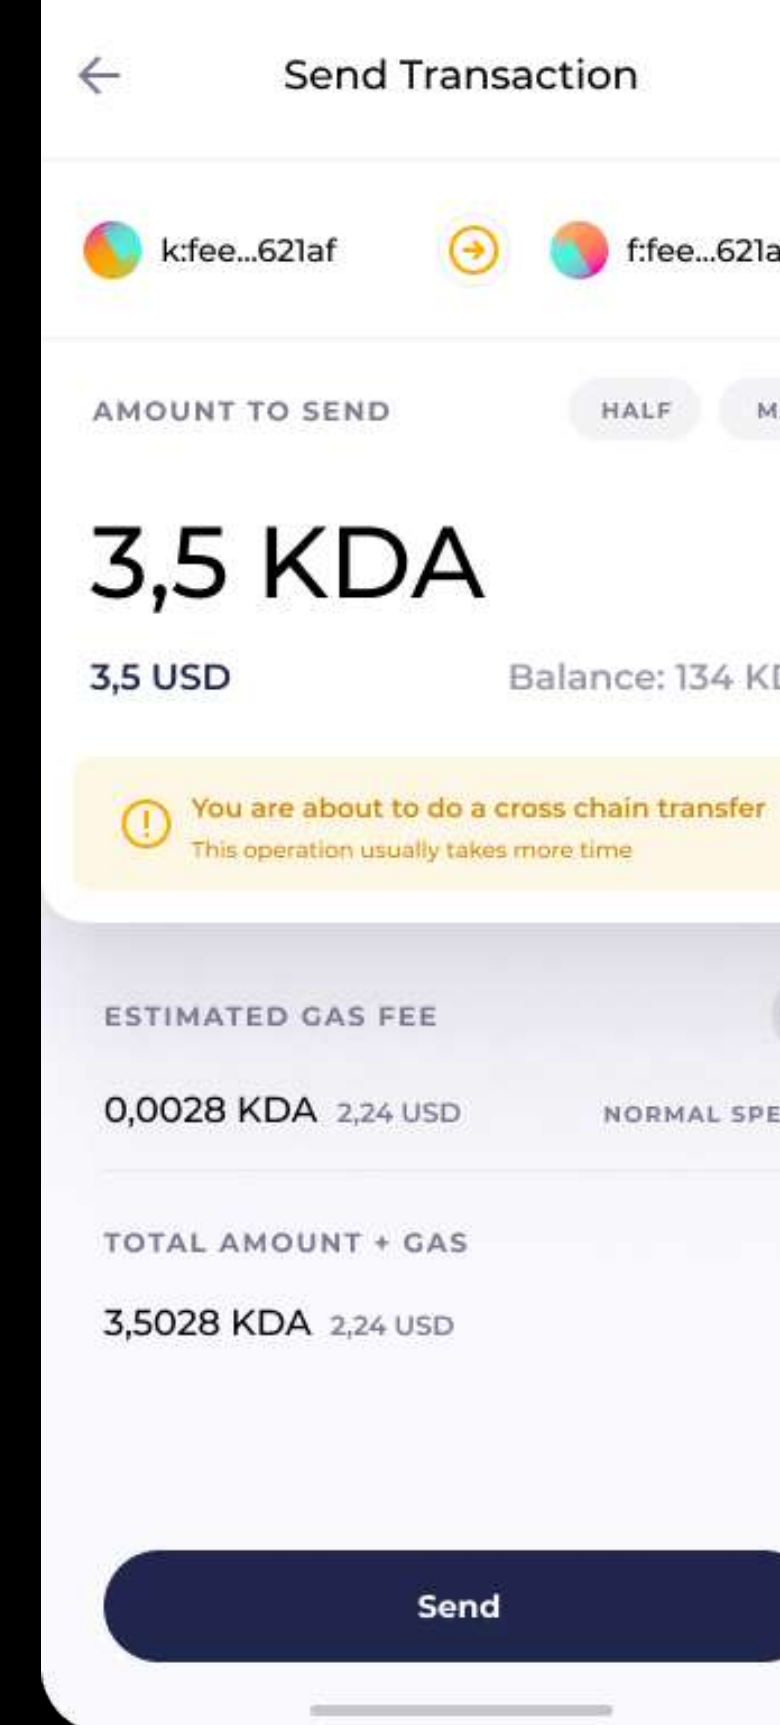

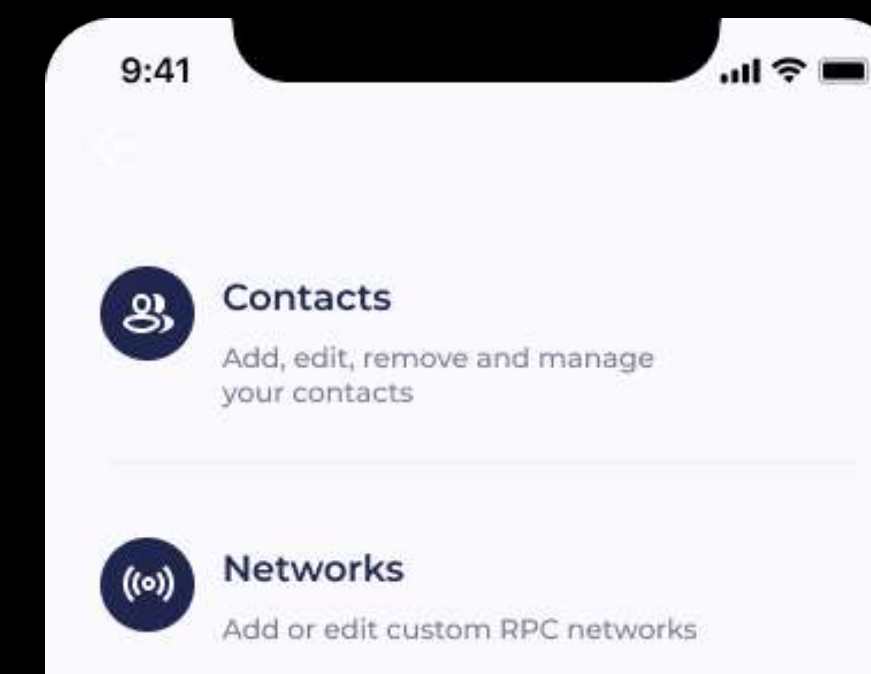

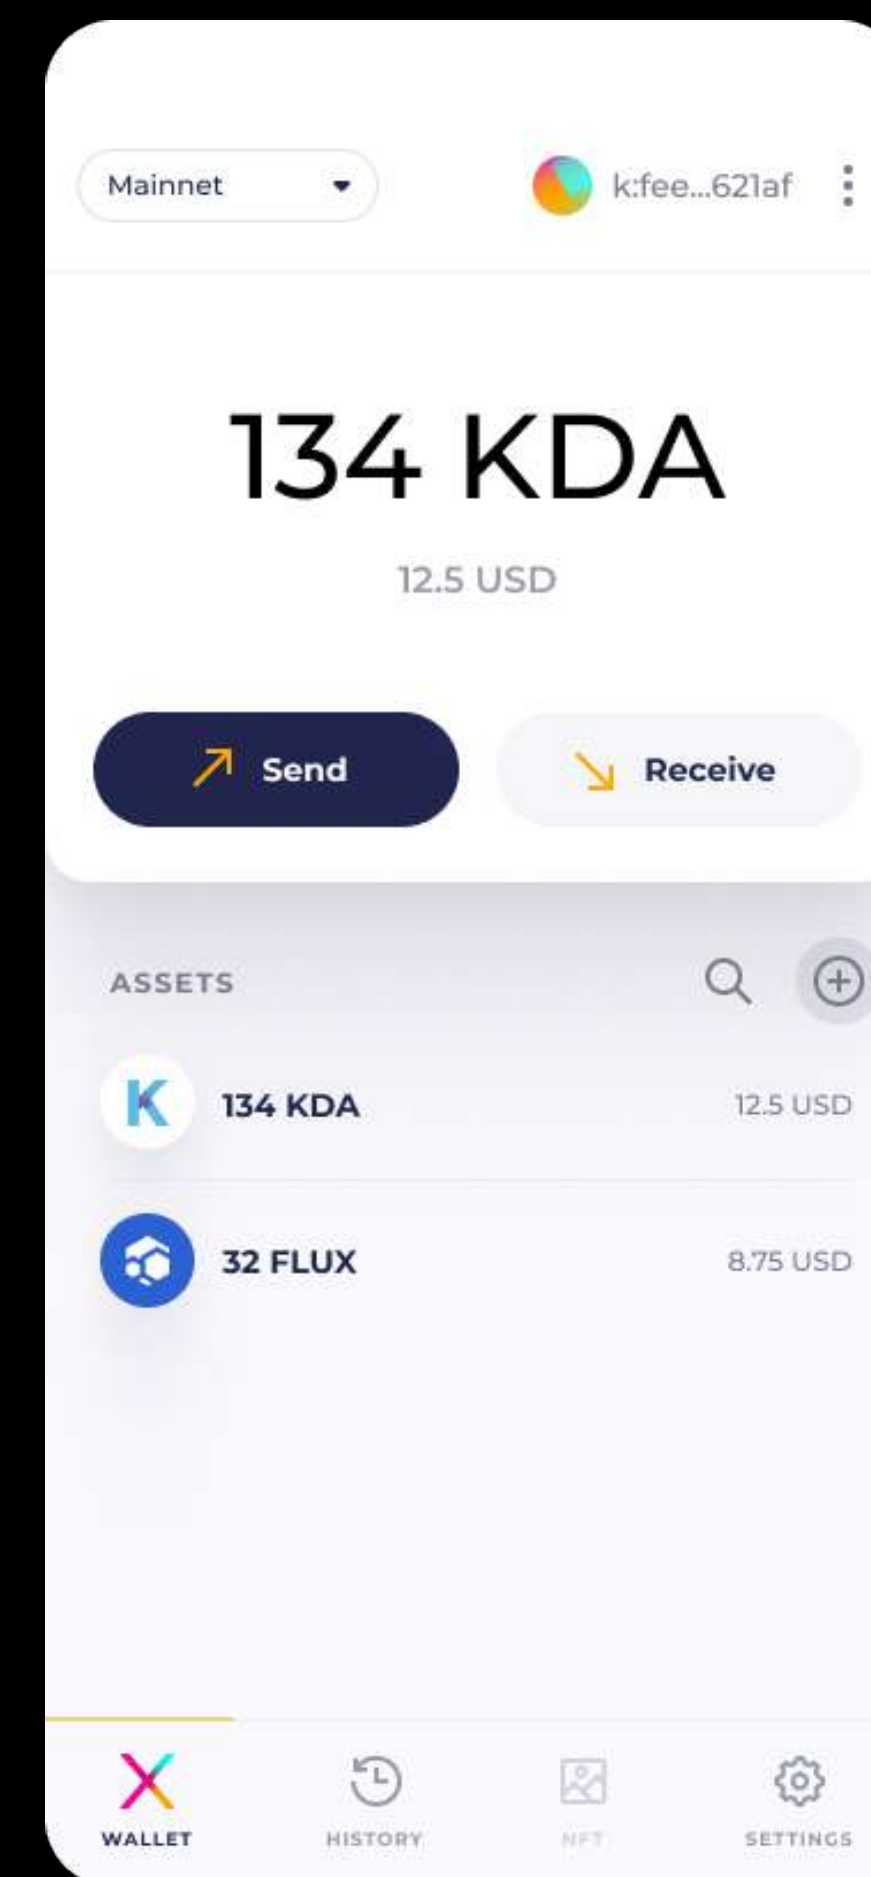

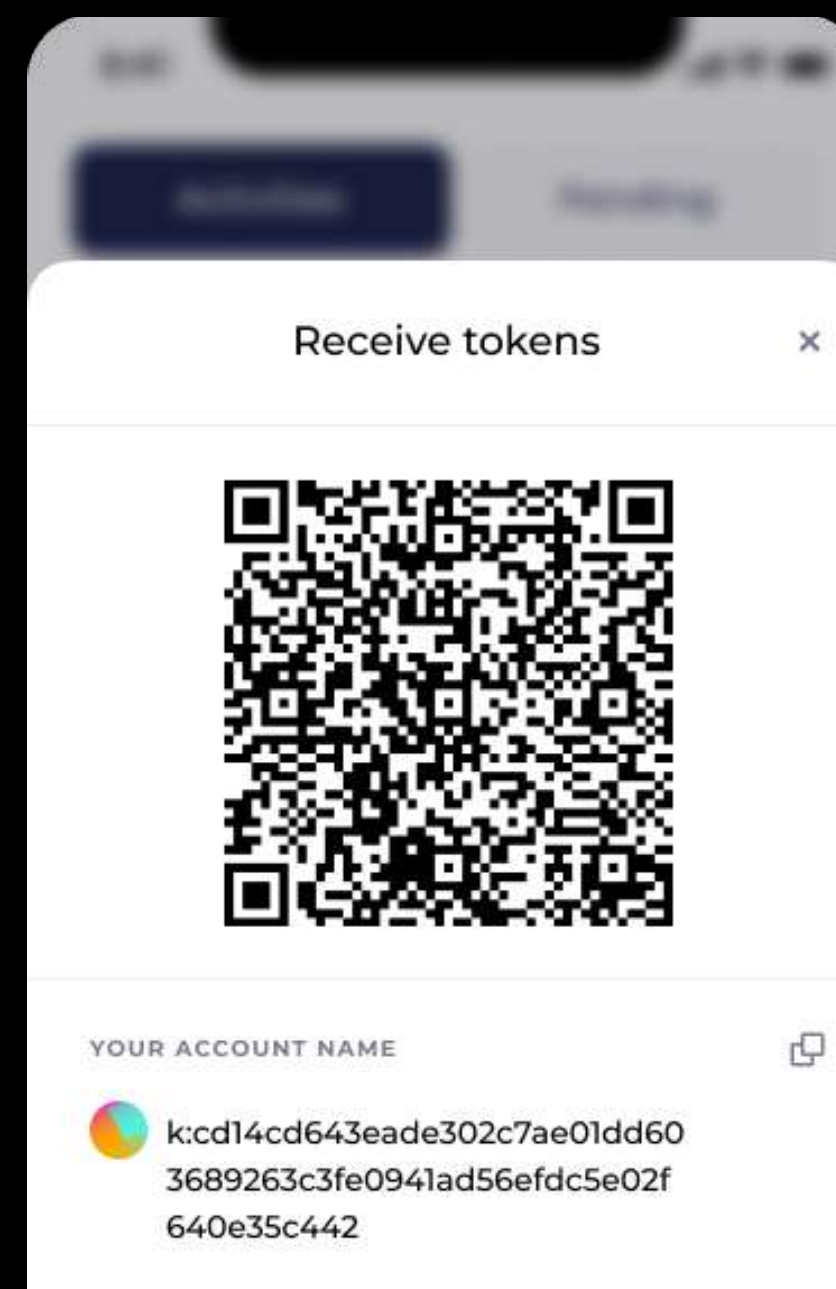

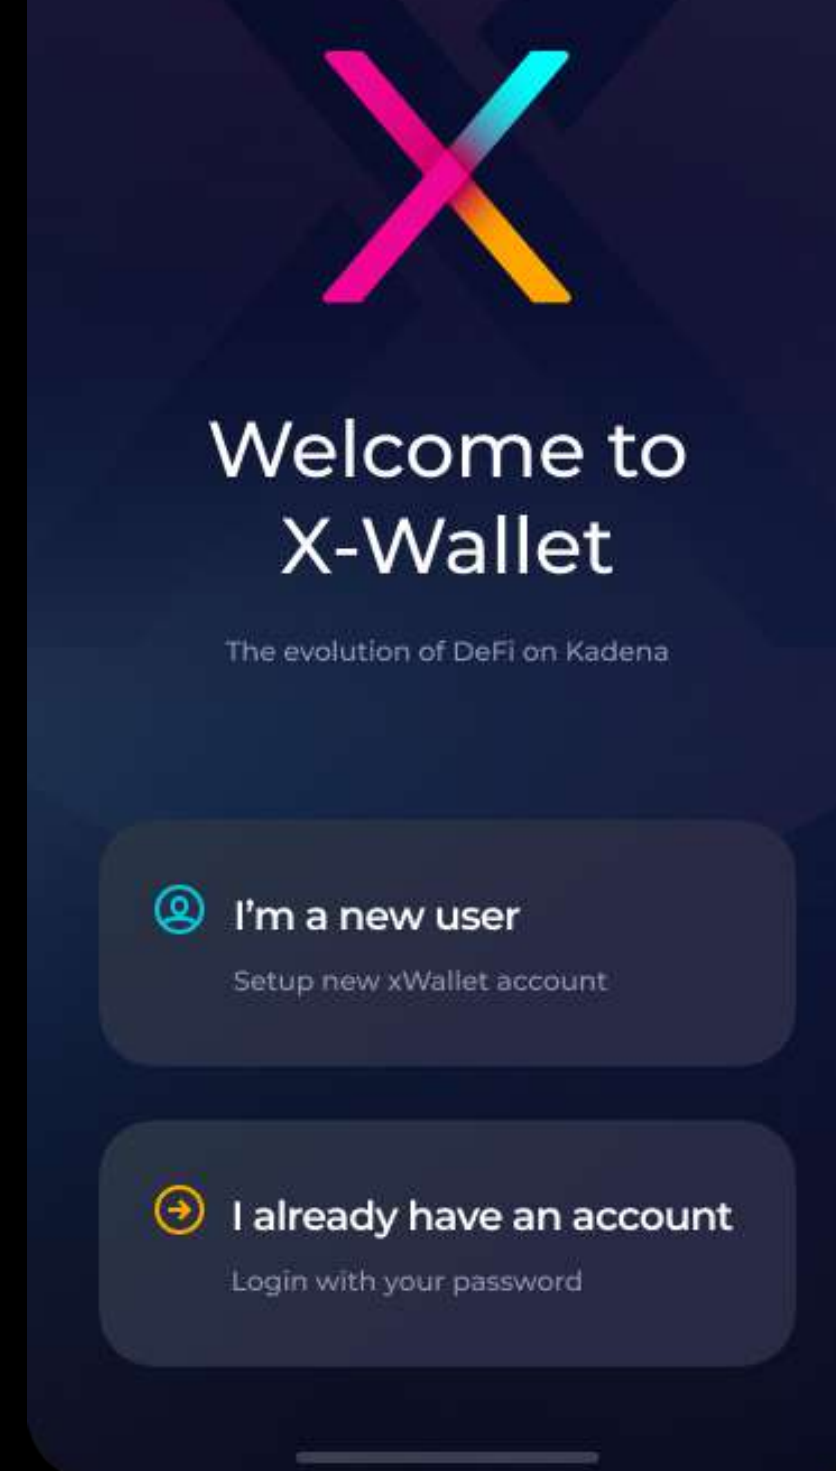

# xWallet App

Standalone mobile app designed and built for Kadena blockchain users to perform major operations with Kadena tokens such as swapping, depositing and withdrawing.

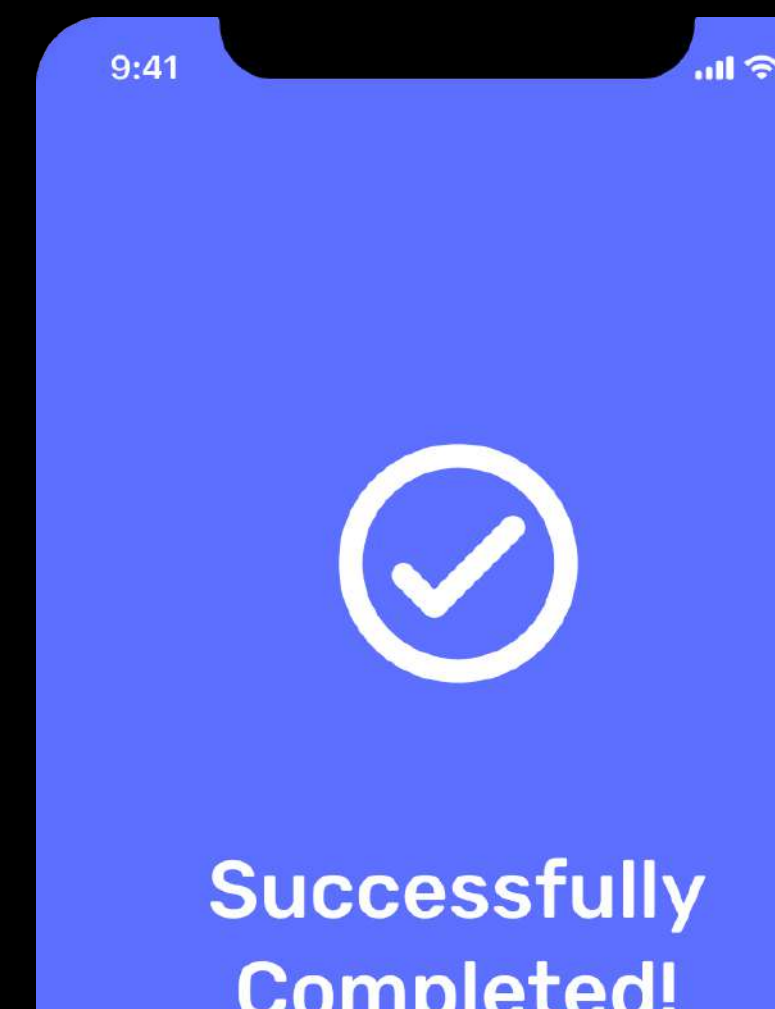

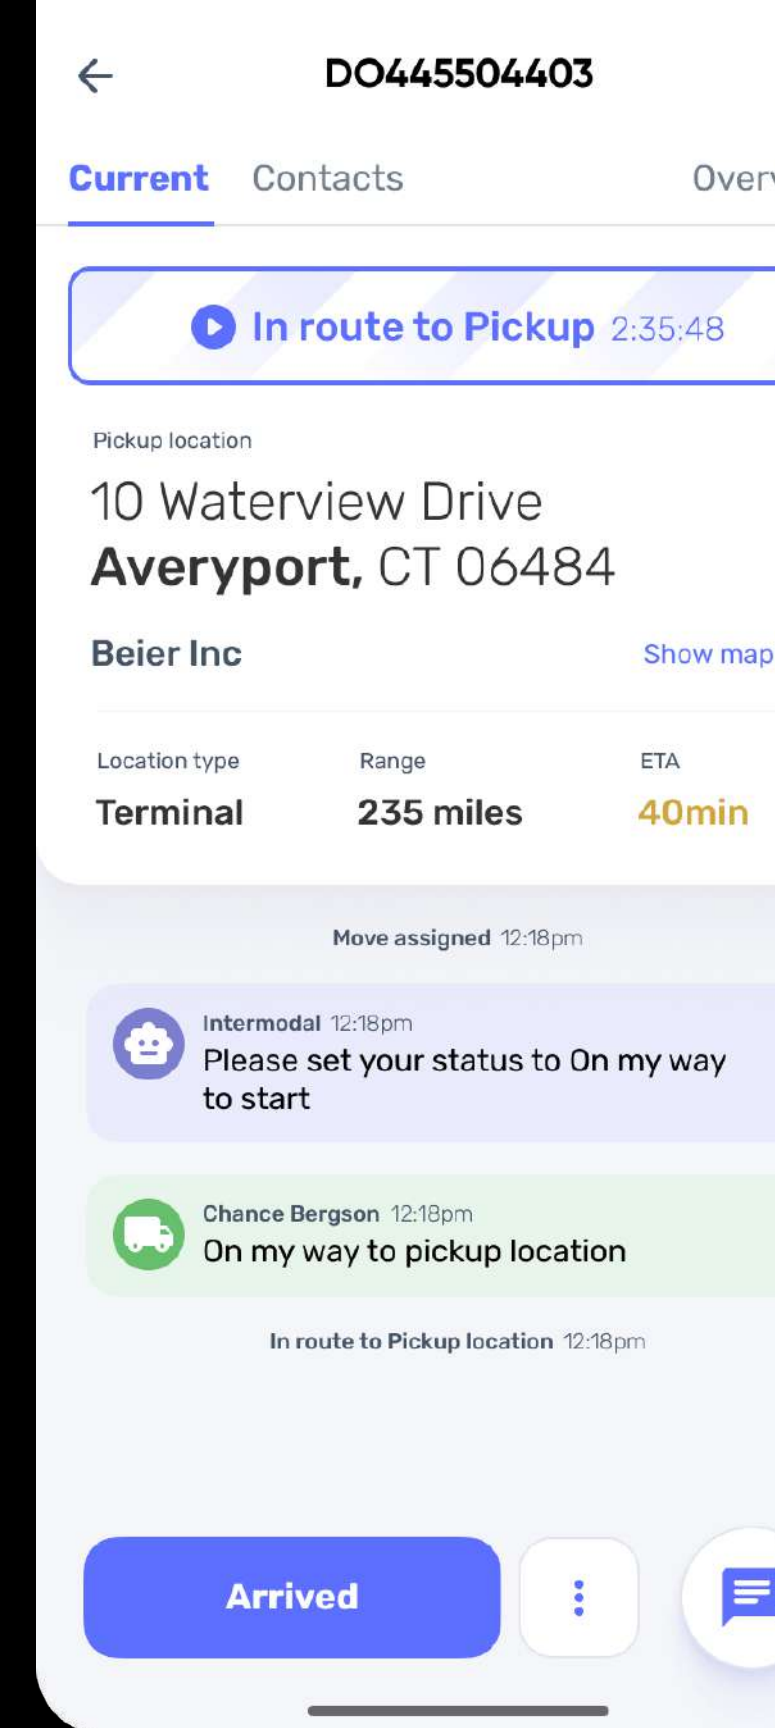

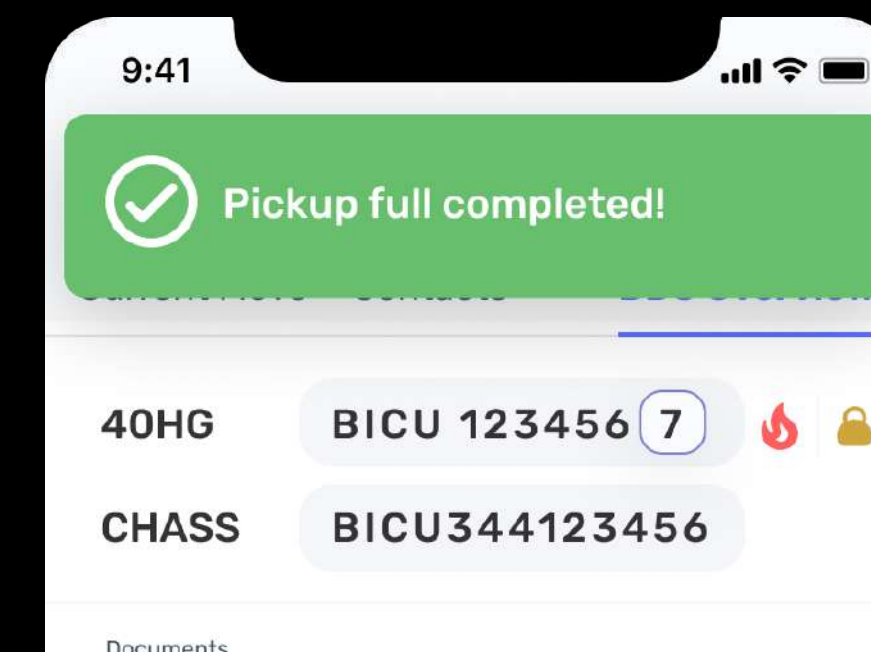

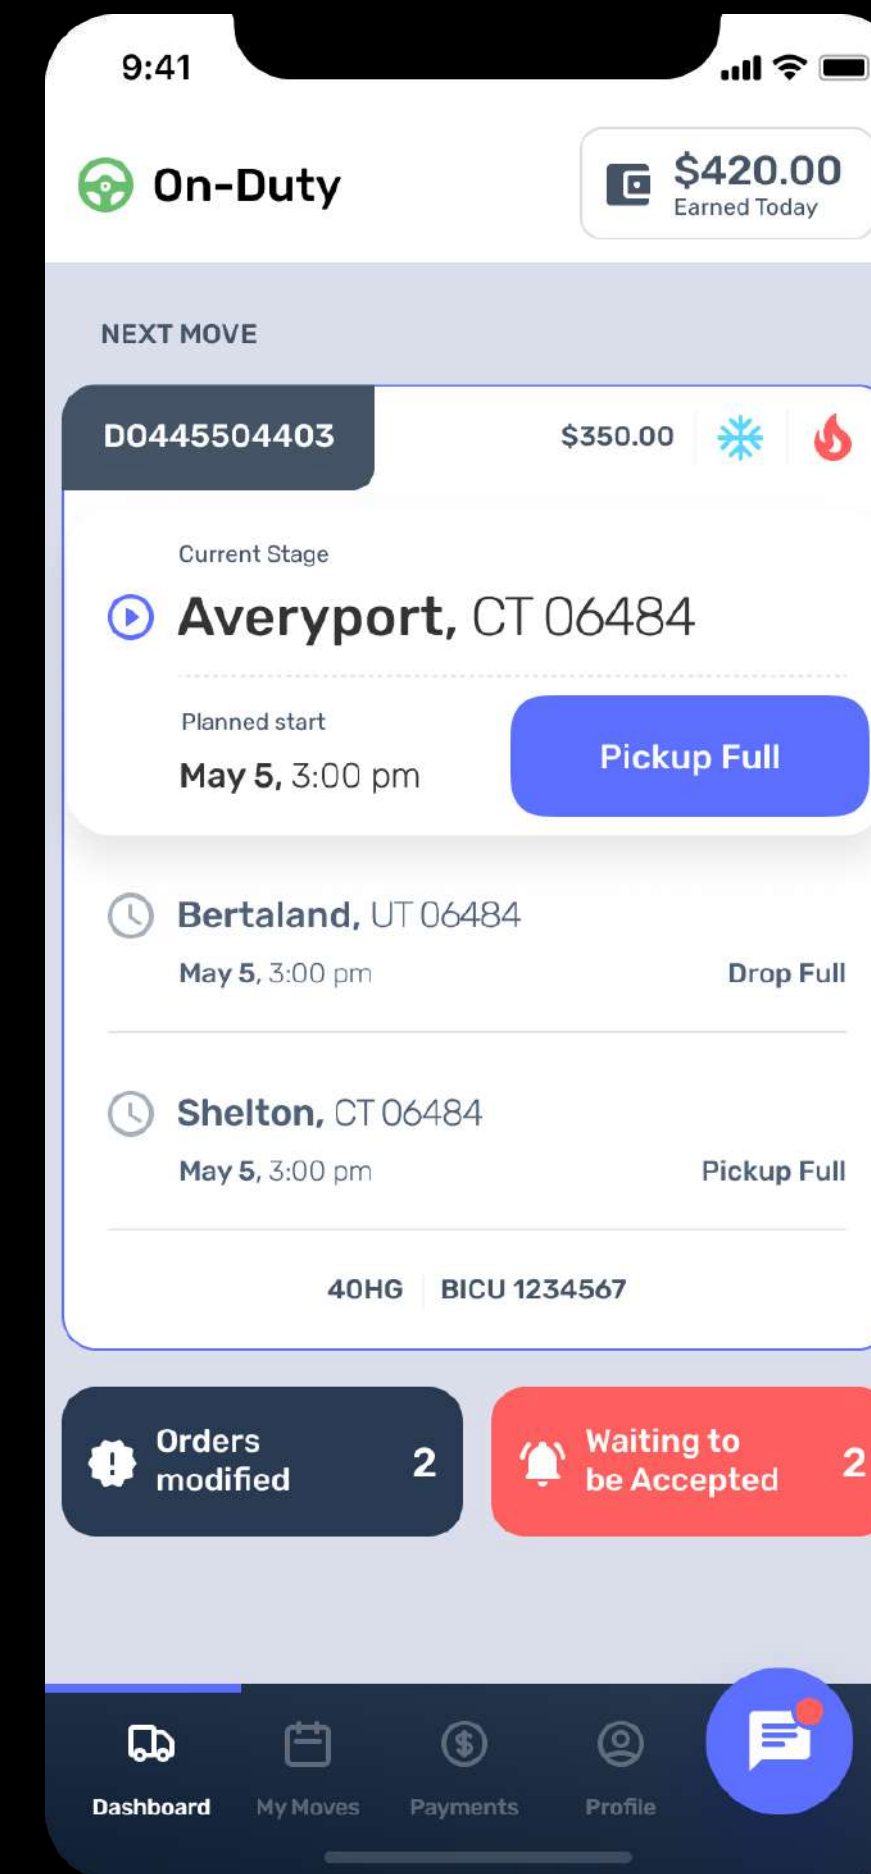

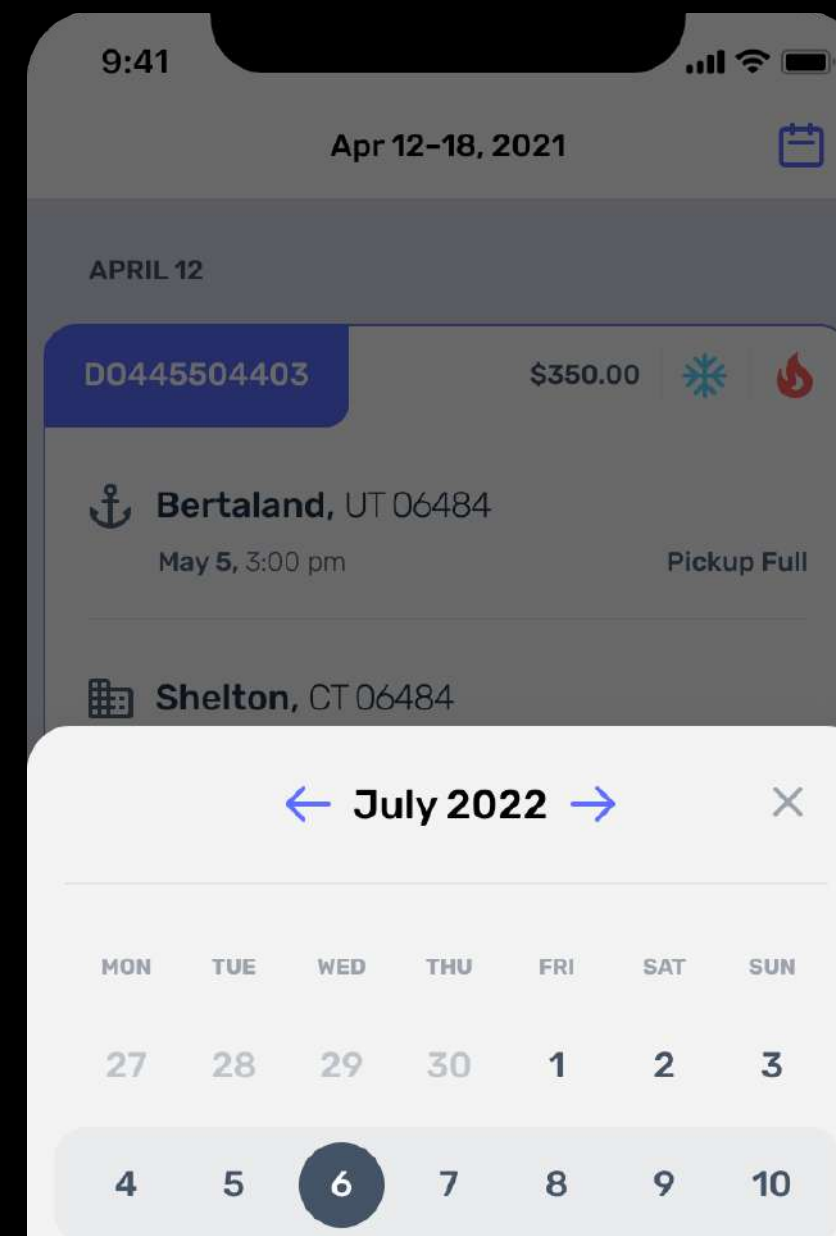

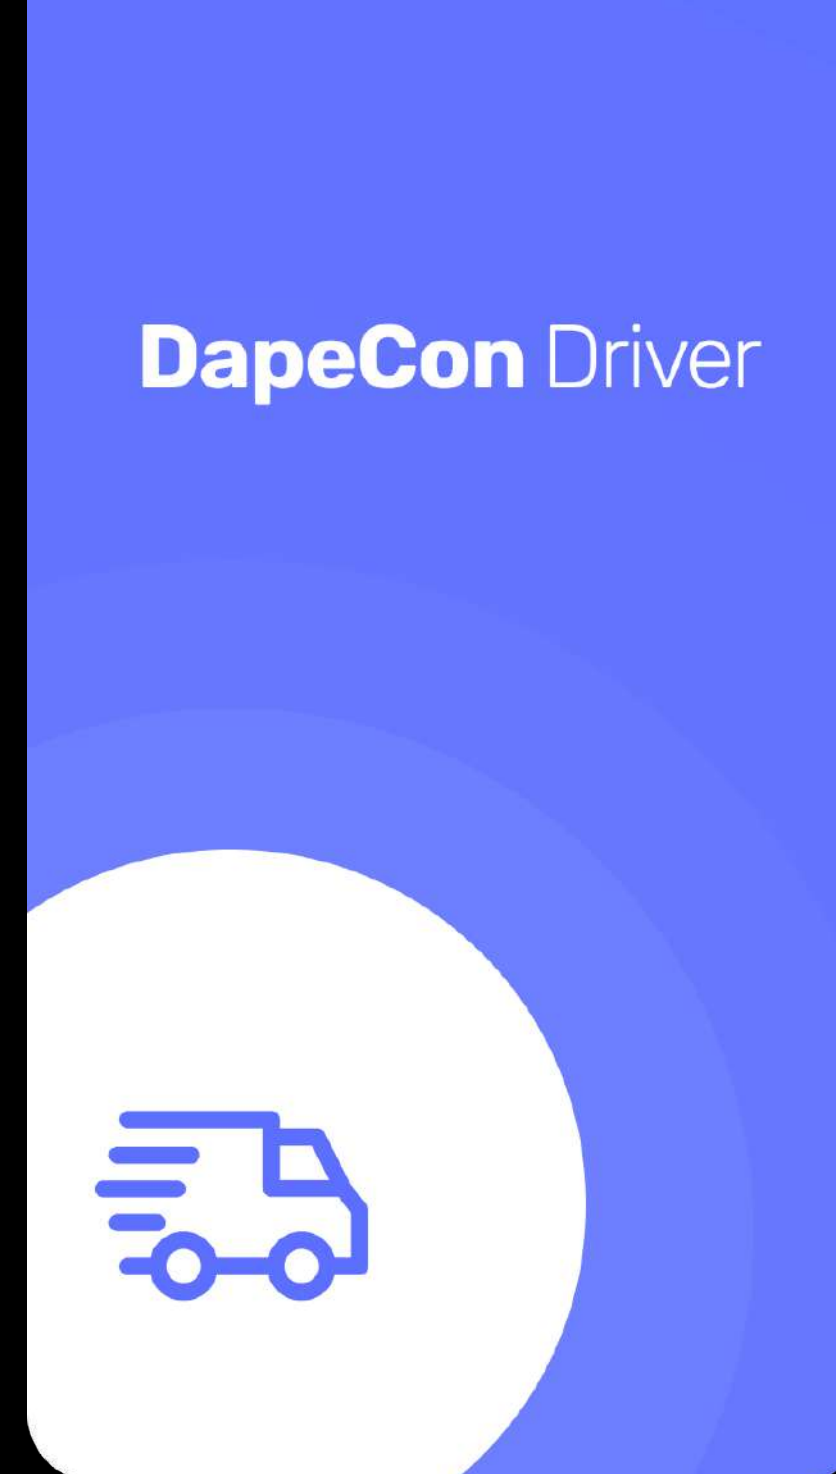

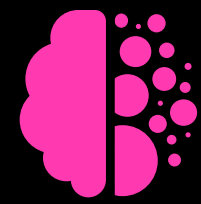

# Driver App

This mobile and easy to use platform is designed to manage core business processes of the in-land transportation in Automotive.

Work orders are managed, recorded and reported within a single environment. The platform manages all unforeseen situations, including damage claims and disputes resolutions. It may incorporate internal guidelines and follow special handling templates or protocols.

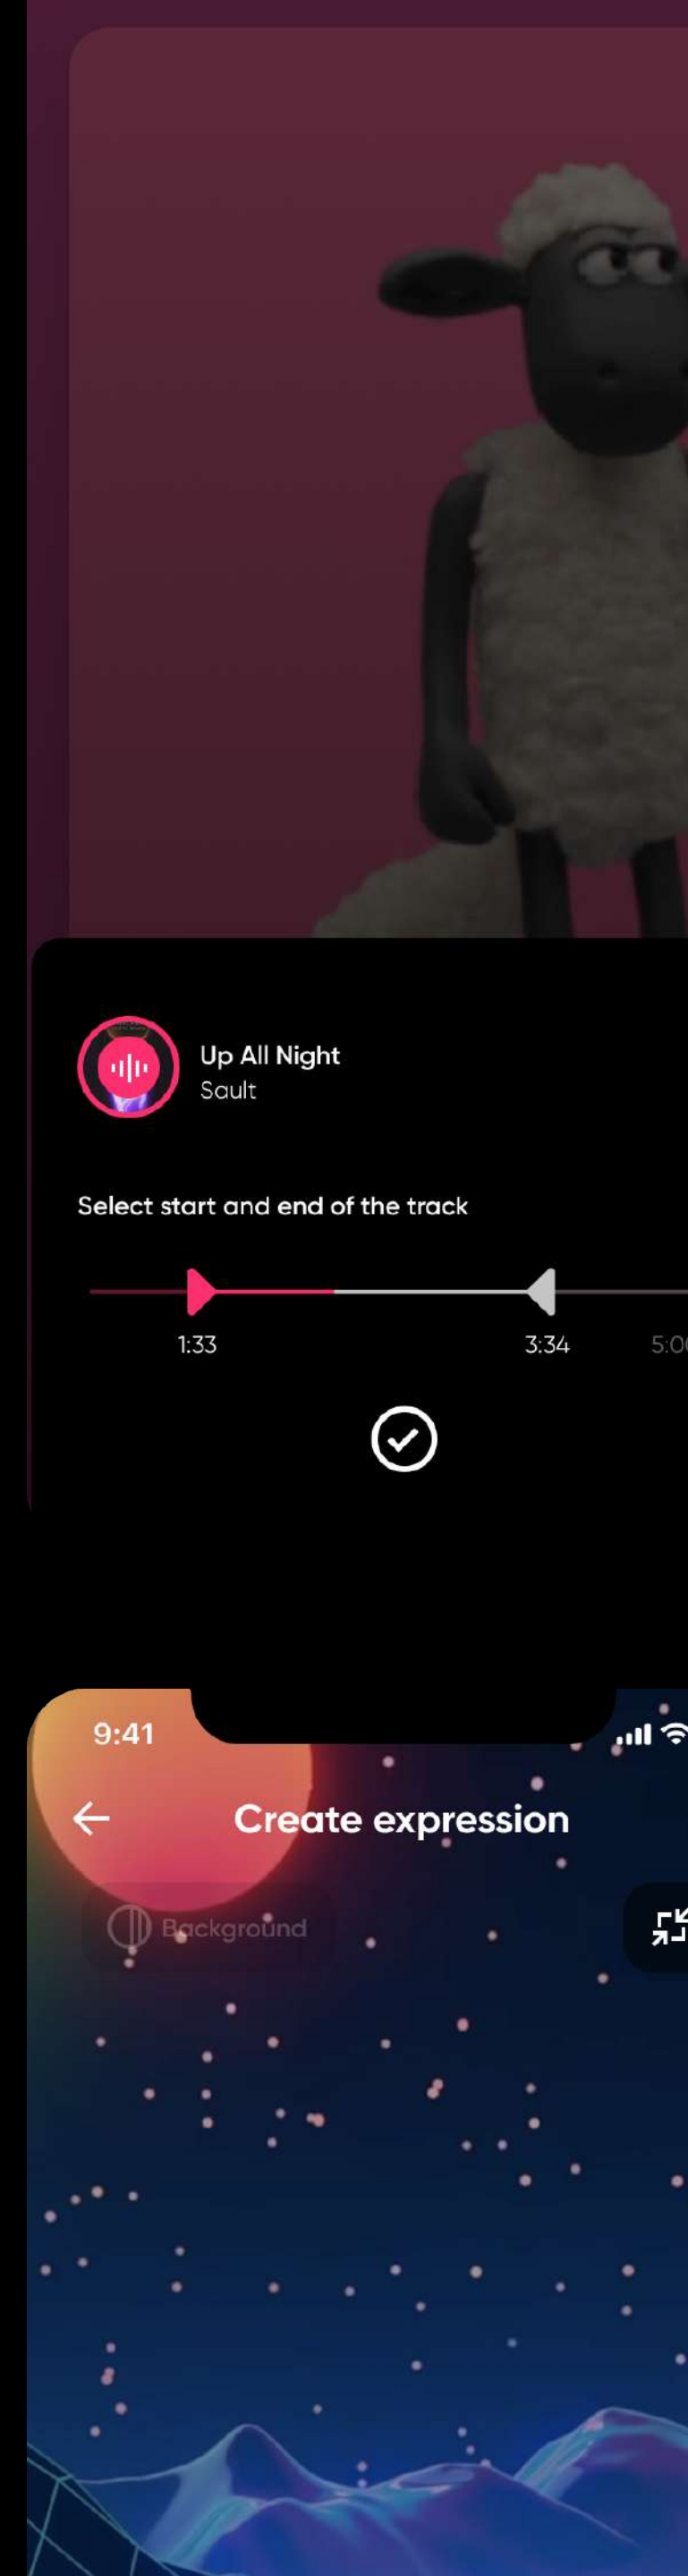

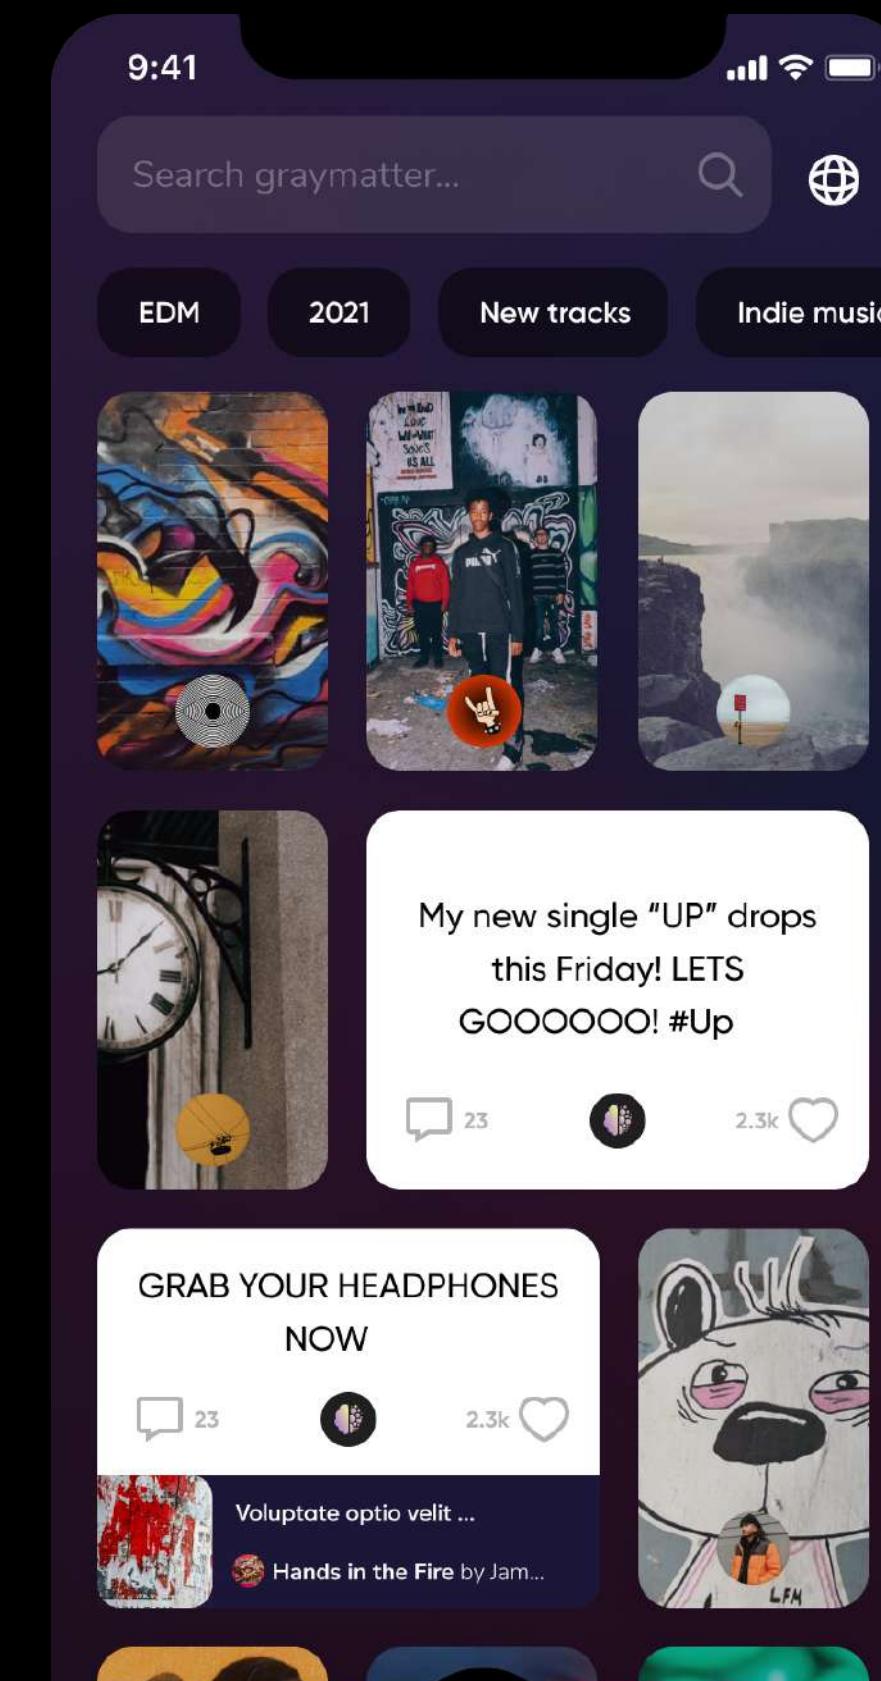

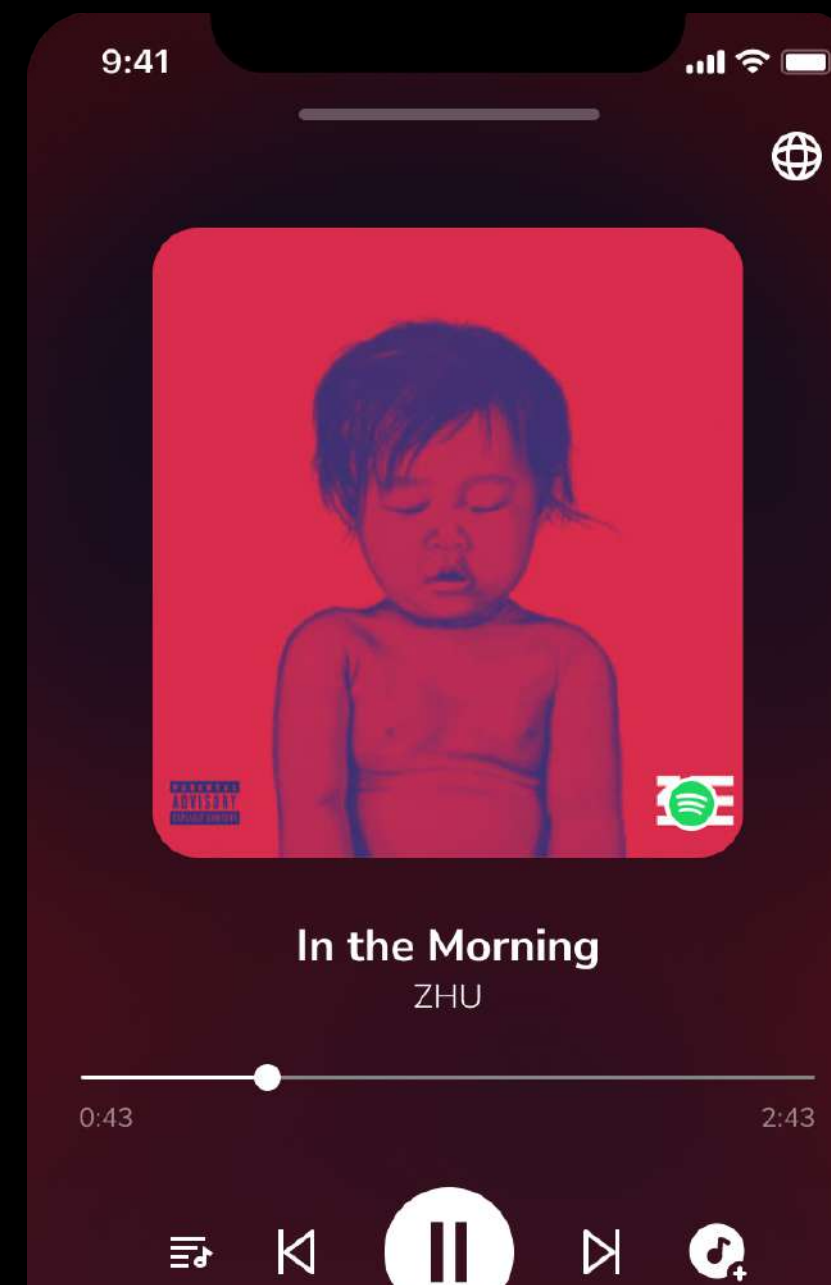

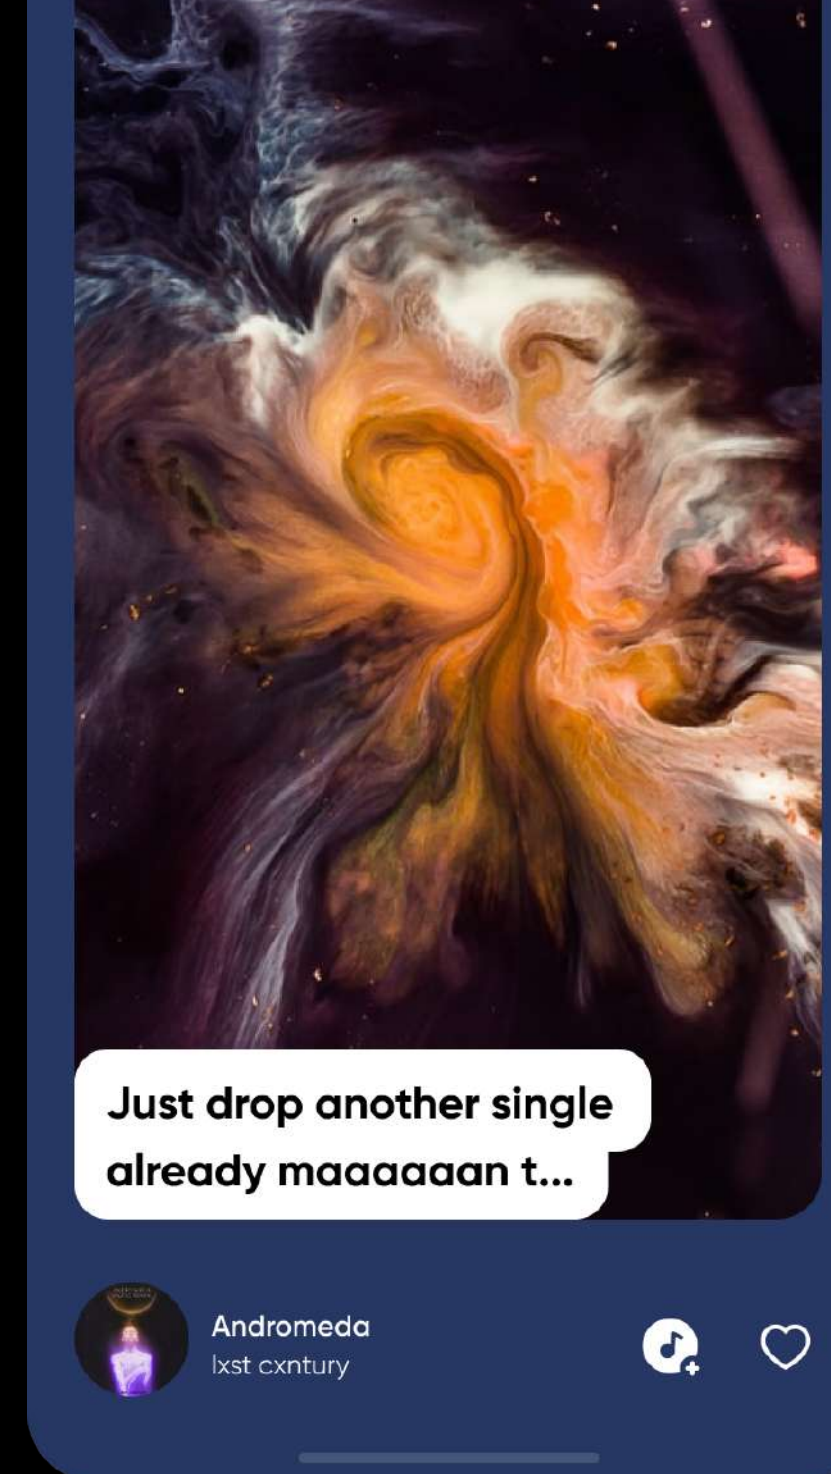

# Greymatter

A community platform with new ways to discover music, express yourself, and support creators.

The app gets together artists and music fans that discover their music, share it with their communities, and support their art.

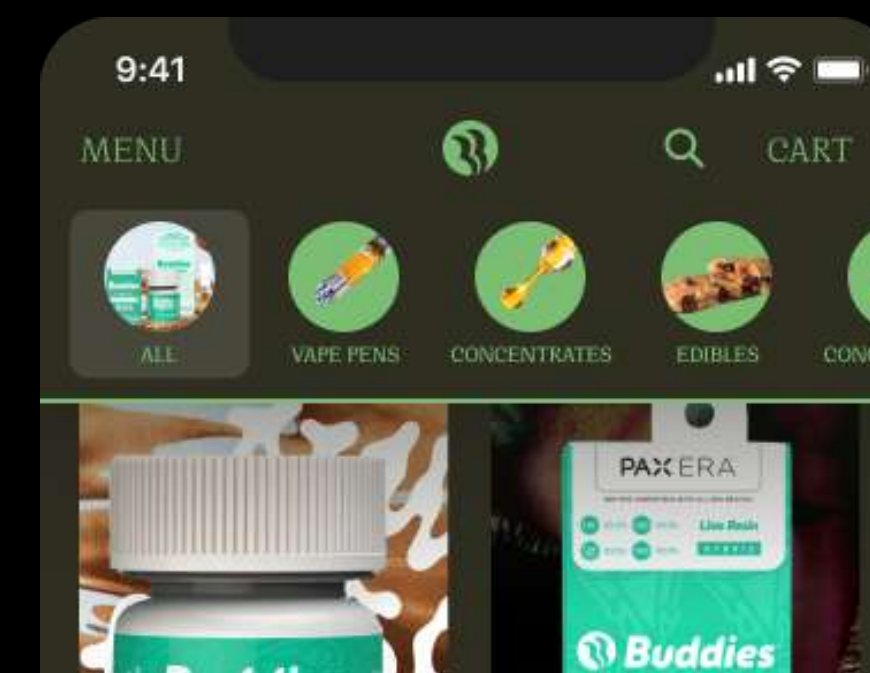

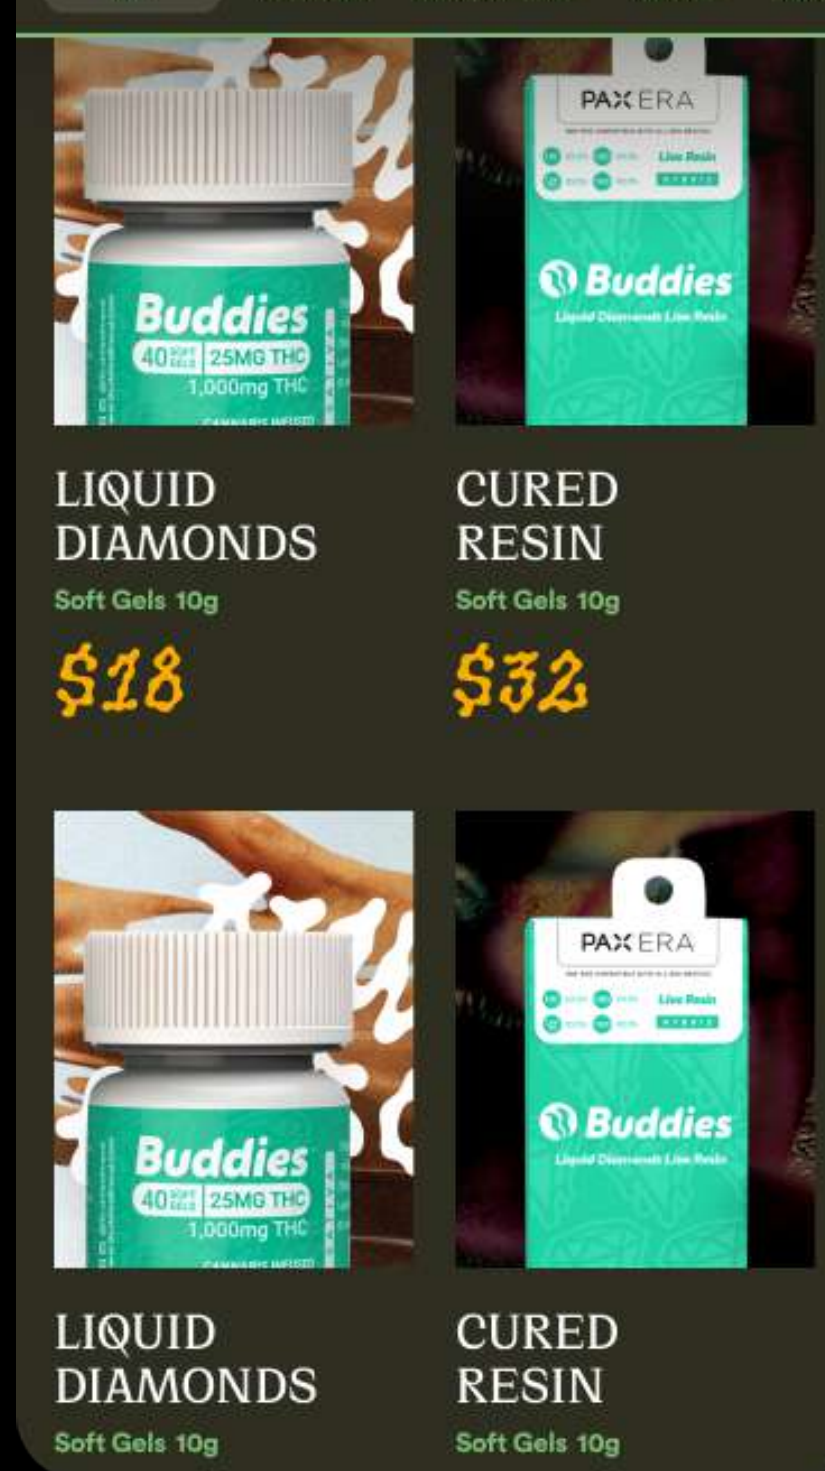

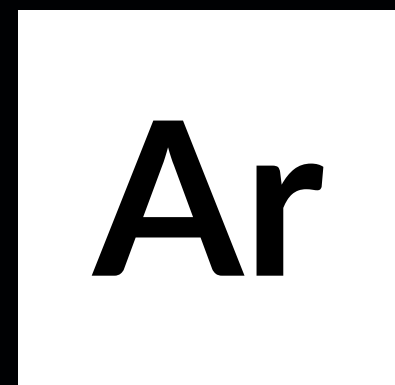

# Buddies

Buddies is a mobile app that incorporates the whole process of finding, ordering and delivering cannabis related products to consumers.
